Service Logic Solution Architecture

Full-platform Salesforce solution mapped to every RFP requirement — from field technician to board dashboard.

ACCOUNT

Service Logic (Bain Capital)

PROPOSAL DUE

July 2, 2026

PLATFORM

Salesforce + Hyperforce Dedicated

Salesforce Solution Architecture — Service Logic FSM

End-to-end platform view · All components mapped to RFP business capability requirements · Hyperforce Dedicated deployment

 Salesforce Native  ISV / AppExchange Partner  MuleSoft Integration  External Systems  Hyperforce Infrastructure

Req tags:          

CUSTOMER & FIELD TOUCHPOINTS

Customer Portal

Self-service · Service requests · PM contract visibility · Invoice access · Multi-channel intake (phone, email, portal, IoT)

FSL Mobile App — Native iOS & Android

Full offline · 500 tx sync <60s · Work orders · Photos · E-signature · Field quoting · Equipment OCR · Biometric auth · Certificate pinning · MDM (Intune)

CSR / Dispatcher / Office Staff

Work order creation (<60s) · Dispatch board · Schedule management · Customer communications · Quote approval

CORE SALESFORCE PLATFORM

Sales Cloud CRM

Pipeline visibility · Account/Contact · Field-generated opportunities → CRM (zero delay) · RBAC per OpCo · SOX segregation of duties

Salesforce Field Service (FSL)

Work order lifecycle · AI dispatch board + live map · Skills/cert matching · PM contracts + auto WO generation · Parent-child contract structures · Project WBS + WIP tracking · Field quoting + NTE alerts · Equipment data capture · Multi-entity config

Revenue Cloud · Agentforce Revenue Management

Contract management · Billing engine (T&M, fixed, progress, milestone) · Auto invoice on WO close + GL coding · Deferred revenue (PM contracts) · ERP push ready · Multi-billing model per OpCo

Tableau

Cross-OpCo KPI dashboards · Board-level financial reporting · Real-time project margin · PM completion rates · IPO-ready analytics

Einstein + Agentforce

AI dispatch optimization · Route optimization · Schedule recommendations · Anomaly detection · Document extraction · Automated workflows

APPEXCHANGE ISV EXTENSIONS — ON PLATFORM

RightRev

ASC 606 / IFRS 15 compliance engine · POC % revenue recognition for construction projects · Deferred revenue schedules · Contract modification accounting · Variable consideration (change orders) · Audit-grade waterfall · IPO-ready · *Precedent: CBRE*

AIA Billing Partner [ISV — to be named]

G702/G703 pay application generation · Draft/pencil workflow with multi-stage approval · Integrated with FSL project progress · Lien waivers · State-specific billing requirements

Union/CBA Compliance Partner [ISV — to be named]

CBA rate library (national → state → local) · Davis-Bacon prevailing wage by work location · Apprentice ratio enforcement · Shift differentials + show-up minimums · WH-347 certified payroll generation

PLATFORM SERVICES

Salesforce Shield

CMEK via KMS · Immutable audit trail (7yr) · Platform encryption AES-256 · Event monitoring · Field audit trail · SOX controls

SEC FC

Identity & Access

SSO — SAML 2.0 / OAuth 2.0 · MFA enforcement · SCIM 2.0 provisioning · Deprovisioning SLA · Intune MDM enrollment · RBAC (20+ OOB roles)

SEC SCL

Multi-Entity Configuration Engine

Global config → Regional override → OpCo-level settings · Entity-level data segregation · Add entities without downtime · OpCo template → 6-8wk repeatable onboarding playbook · 60+ entities today → 100+ at scale

SCL SEC

Experience Cloud

Customer portal · Self-service requests · PM contract visibility · Invoice access · Branded per OpCo

CXR

INTEGRATION LAYER

MuleSoft — Integration & Data Migration

ERP connectors: WennSoft/Great Plains, SAMPRO, Dynamics · Multi-ERP concurrent support (12-18mo migration window) · Data migration tooling for 15+ legacy systems · API management · Event-driven integration

Payroll Integration

Paylocity · ADP · Bidirectional sync · Union CBA time data → payroll · Certified payroll output

TPA RLC

Tax Engine Integration

Avalara · Vertex · Multi-jurisdiction tax calculation · Applied at invoice generation

FC W2C

Service Logic FSM · Solution Architecture · Confidential

Salesforce Distinguished SE · June 2026

EXTERNAL SYSTEMS (EXISTING)

ERP

WennSoft / Great Plains · SAMPRO · QuickBooks (small OpCos) · SAGE · Migrating to common architecture

Payroll

Paylocity · ADP · Union-specific payroll processors

Tax Engine

Avalara · Vertex · Multi-state + Canada compliance

MDM

Microsoft Intune · Device policy enforcement · App distribution

Legacy FSM

ServiceTitan · WennSoft · ServiceTrade · FieldEdge · SM-1 · BuildOps — all migrating to Salesforce

INFRASTRUCTURE FOUNDATION — HYPERFORCE DEDICATED DEPLOYMENT

Single-Tenant Topology

Contractual tenant isolation attestation · Addresses ENT-020 · No data co-mingling

SEC

US Data Residency

Guaranteed in writing · Canada support included · GDPR/PIPEDA ready

SEC

SOC 2 Type II

Current certification · Annual renewal · Available under NDA · PE procurement ready

SEC FC

Encryption & Security

AES-256 at rest · TLS 1.3 in transit · WAF · DDoS protection · Semi-annual pen test

SEC

SLA & Recovery

99.9% uptime · RPO <1hr · RTO <4hrs · 2,000+ concurrent users · API <500ms p95

SCL

Data Portability

Customer owns all data · Export any time · No fees · No vendor assistance required · Non-negotiable PE/Bain right

Solution Component → RFP Requirements Mapping

Every component mapped to Service Logic's nine business capability areas and security requirements. "Native" = OOB or CONFIG response. "ISV" = named AppExchange partner. "Integration" = MuleSoft or connector.

COMPONENT	TYPE	WHAT IT DOES FOR SERVICE LOGIC	RFP REQUIREMENTS ADDRESSED	CRITICAL MUST REQUIREMENTS MET
Salesforce Field Service (FSL)	Native	Core FSM engine. Work order lifecycle from intake to close. AI-powered dispatch board with live map. PM contract management with automated work order generation. Project WBS and WIP tracking. Field quoting with NTE alerts. Equipment data capture. Multi-entity configuration.	W2C TPA PJE DAVG RLC SCL	Work order lifecycle · NTE alerts · PM auto-generation · Parent-child contracts · Dispatch board · Multi-entity config
FSL Mobile App Native iOS + Android	Native	Native App Store / Google Play app (not PWA). Full offline capability — technicians complete work orders, capture photos, collect signatures, and generate quotes with zero connectivity. Syncs all transactions in under 60 seconds on reconnection. Biometric auth, certificate pinning, Intune	W2C TPA SEC	Native app (disqualifies PWA competitors) · Full offline · <60s sync · Biometric auth · MDM · Certificate pinning
Service Logic FSM · Solution Architecture · Confidential			Salesforce Distinguished SE · June 2026	
Sales Cloud CRM	Native	Already the Service Logic corporate standard. Field-generated opportunities flow instantly from FSL Mobile to CRM pipeline — eliminating the 24-48 hour manual delay. RBAC enforces OpCo data isolation. SOX segregation of duties enforced through role configuration.	OS SCL SEC	Zero re-keying from field → CRM · RBAC per OpCo · SOX segregation of duties
Revenue Cloud Agentforce Revenue Management	Native	Billing engine covering T&M, fixed price, progress, and milestone billing. Automatic invoice generation on work order close with GL coding and entity mapping. Straight-line deferred revenue for PM contracts. ERP push via MuleSoft. Eliminates the 15-30 day billing lag — invoices generate same day work is completed.	FC W2C RLC PJE	Auto invoice on WO close · Multiple billing models · Deferred revenue · GL coding · ERP integration
RightRev AppExchange ISV	ISV Partner	ASC 606 / IFRS 15 compliance engine for IPO readiness. Handles percentage-of-completion (POC) revenue recognition for construction projects — the specific gap that contributed to ServiceMax's rejection. Manages complex contract modifications, variable consideration (change orders), and multi-element arrangement allocation. Produces audit-grade waterfall documentation	FC PJE	ASC 606 POC rev rec · Contract modification accounting · IPO audit readiness · Addresses ServiceMax gap · CBRE reference

COMPONENT	TYPE	WHAT IT DOES FOR SERVICE LOGIC	RFP REQUIREMENTS ADDRESSED	CRITICAL MUST REQUIREMENTS MET
		recognized by Big 4 auditors. Precedent: deployed at CBRE.		
AIA Billing Partner AppExchange ISV — to be named	ISV Partner	G702/G703 AIA pay application generation natively within the Salesforce platform. Draft/pencil workflow with multi-stage approval. Integrated with FSL project progress completion percentage. Lien waiver management with state-specific requirements. Must be a named partner with committed SOW in the proposal.	PJE FC	G702/G703 native generation · Draft/pencil approval workflow · Lien waivers · Previously rejected in ServiceMax eval
Union/CBA Compliance Partner AppExchange ISV — to be named	ISV Partner	CBA rate library configurable at national, state/regional, and local/trade levels — applied by work location (not home OpCo). Davis-Bacon prevailing wage auto-application. Apprentice ratio enforcement and unsupervised rate rules. WH-347 certified payroll report generation for government projects. Shift differentials, show-up minimums, double-time rules enforced in	TPA RLC	Davis-Bacon by work location · Apprentice ratio enforcement · WH-347 certified payroll · CBA rate library
Service Logic FSM · Solution Architecture · Confidential			Salesforce Distinguished SE · June 2026	
Tableau	Native	Cross-OpCo KPI dashboards enabling performance benchmarking across all 60 entities — the first time Service Logic will have this view. Board-level financial dashboards for Bain Capital and IPO readiness. Real-time project margin visibility. PM completion rates. Acquisition onboarding progress tracking. Gross margin reporting for exit readiness.	DAVG FC SCL	Cross-OpCo KPI benchmarking · Board reporting · Gross margin for IPO · Real-time project margin
Einstein + Agentforce	Native	Einstein Scheduling delivers AI-optimized dispatch — matching technicians by skills, certifications, location, and availability to achieve the 15% response time reduction target. Agentforce automates workflows, extracts data from documents, detects anomalies, and enables the AI-assisted CSR and dispatcher experience. Runs on all Service Logic data within the Salesforce platform.	DAVG W2C TPA	AI dispatch optimization · 15% response time target · Skills/cert matching · Workflow automation

Component	Type	What it does for Service Logic	RFP Requirements Addressed	Critical Must Requirements Met
Salesforce Shield	Native	Customer-Managed Encryption Keys (CMEK) via AWS KMS or Azure Key Vault — a Must requirement for SOX/IPO. Immutable field audit trail retained for 7 years with 2-year online access. Platform encryption at AES-256. Event monitoring for security and compliance. All Shield capabilities confirmed available on Hyperforce dedicated deployment.	SEC FC	CMEK (Must requirement) · 7-year immutable audit trail · AES-256 · SOX controls · IPO audit readiness
Identity & Access SSO / MFA / SCIM	Native	SAML 2.0 / OAuth 2.0 SSO with Service Logic's identity provider. MFA enforcement across all users. SCIM 2.0 automated provisioning and deprovisioning — deprovisioning triggers within 15 minutes of IdP event. 20+ OOB RBAC roles with custom role support. Microsoft Intune MDM enrollment for mobile devices.	SEC SCL	SCIM deprovisioning SLA · MFA enforcement · SSO · 20+ OOB roles · MDM enrollment
Multi-Entity Config Engine	Native	Global configuration layer that cascades with OpCo-level overrides — no code forking. Each new acquisition is	SCL SEC OS	60+ OpCo support → 100+ · Template boarding · Entity data segregation · No downtime for new entities
Service Logic FSM · Solution Architecture · Confidential		scratch. Supports 40+ legal entities today, scaling to 100+ without re-architecture. Entity-level data segregation enforced natively. New entities added without platform downtime.	Salesforce Distinguished SE · June 2026	
Experience Cloud Customer Portal	Native	Branded customer portal for service request submission, PM contract visibility, invoice access, and work order status tracking. Supports multi-channel intake (phone, email, portal, IoT). Brandable per OpCo, preserving each operating company's local identity while running on the shared platform.	CXR	Customer self-service portal · PM contract visibility · Multi-channel intake · OpCo branding
MuleSoft	Integration	Pre-built connectors for WennSoft/Great Plains, SAMPRO, and Dynamics support concurrent multi-ERP integration during the 12-18 month migration wave. Data migration tooling for 15+ legacy FSM systems (ServiceTitan, ServiceTrade, FieldEdge, SM-1, BuildOps, spreadsheets). Payroll integration (Paylocity/ADP). Tax engine connectors (Avalara/Vertex). API management and event-driven integration.	SCL FC W2C TPA	Multi-ERP concurrent migration · 15+ legacy system migration tooling · Payroll integration · Tax engine

COMPONENT	TYPE	WHAT IT DOES FOR SERVICE LOGIC	RFP REQUIREMENTS ADDRESSED	CRITICAL MUST REQUIREMENTS MET
Hyperforce Dedicated Infrastructure Foundation	Native	Dedicated deployment topology with contractual tenant isolation — directly addresses ENT-020 (the explicit single-tenant disqualifier). US data residency guaranteed in writing. SOC 2 Type II certification current and ongoing. 99.9% uptime SLA, RPO <1hr, RTO <4hrs. TLS 1.3 in transit, AES-256 at rest. WAF + DDoS protection. Data portability: customer owns all data, exportable at any time at no cost — non-negotiable PE/Bain right included in MSA.	SEC SCL FC	ENT-020 single-tenant compliance · US data residency · SOC 2 Type II · 99.9% SLA · Data portability for PE exit

TWO ISV PARTNERS STILL REQUIRED
AIA Billing (G702/G703) and Union/CBA Compliance must be named before July 2. Generic "available via AppExchange" scores as GAP.

RightRev is confirmed
